1 year

Use and selection

Acrylic paint for kerb markings, made to the same formula as the acrylic road marking paint. Share the surface condition and existing paint type so that suitability can be assessed for your project.

Before your project

Specify the substrate, existing coating and surface condition. Check preparation requirements and compatibility before application.

Share the area or line dimensions, intended use, application equipment and project specification, if available.

RAL 9016 · RAL 1023 · RAL 9017 · RAL 3020 · RAL 5015 · RAL 6001 · RAL 2004 · RAL 7040

Request the current technical data sheet and safety data sheet for the selected product and its components before application. Product brochures and catalogues do not replace these documents.
