Epoxy / solvent-free

Use and selection

Two-component, solvent-free epoxy primer. Supplied clear; can be produced in the required colour on request. Used as the primer layer of epoxy floor coating systems.

Before your project

Specify the substrate, existing coating and surface condition. Check preparation requirements and compatibility before application.

Share the area or line dimensions, intended use, application equipment and project specification, if available.

Request the current technical data sheet and safety data sheet for the selected product and its components before application. Product brochures and catalogues do not replace these documents.
